

BEYOND INFINITY[®]

NEWPORT goes BEYOND INFINITY[®] with the INF-B.

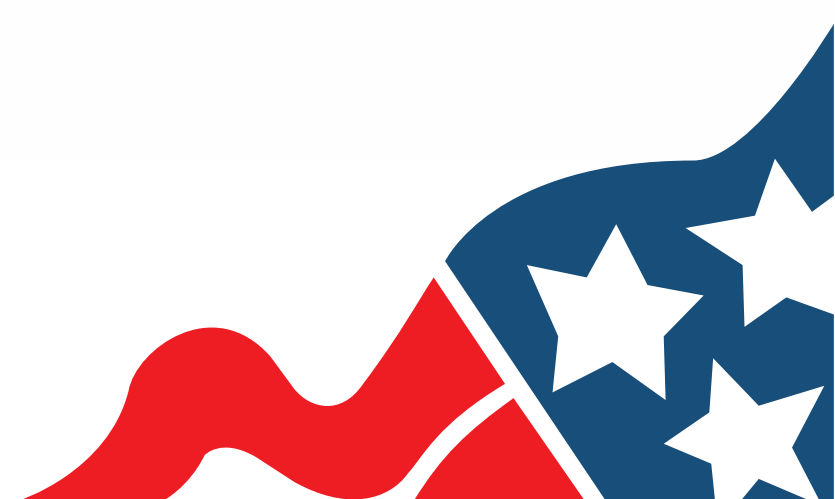

The NEWPORT INFINITY[®] set the world standard for accuracy, quality and performance in digital panel meters.

The INF-B raises the bar even higher with an accuracy of $\pm 0.005\%$ of reading, and up to 166 readings per second!

Connect directly to an Ethernet network. Monitor and control a process through a web browser from anywhere on the Internet!

- ✓ Universal Inputs:
Thermocouple, RTD, Process DC Voltage/Current, and Strain
- ✓ High Accuracy: $\pm 0.005\%$ of Reading
- ✓ Up to 166 Readings per Second
- ✓ 10 Point Linearization of Input Signals
- ✓ Built-In Excitation
- ✓ Four Isolated Open Collector Output
- ✓ NEMA-4, IP65 Front Bezel
- ✓ 6-Digit, Totally Programmable Color Displays
- ✓ Ethernet or RS-232/RS-485 Option
- ✓ Isolated Analog Output Option
- ✓ Four Relay Output Option
- ✓ In-Line Calibration
- ✓ Free Factory Setup and Configuration
- ✓ Free Software
- ✓ Five Year Warranty

NEWPORT instruments are designed and manufactured in the U.S.A.
